

CONSTRUCTION

Malaysia's Largest "Construction Supermarket"

Construction has been IJM's core business since its formation. Synergies for growth were forged as the Group sought to diversify into other sectors related to its core construction business. Today, IJM has grown to become one of Malaysia's largest and most diversified construction group in terms of projects undertaken and geographical spread. Having earned a solid reputation in each of its specialized construction fields, IJM is effectively Malaysia's largest "Construction Supermarket".
