

IJM CORPORATION BERHAD

Factsheet

INDUSTRY

OVERVIEW

IJM's Industry Division began with the establishment of Industrial Concrete Products (ICP Piles) in 1977, initially as a joint venture for the Prai Power Station. IJM became the full owner in 2008, and today, ICP Piles is one of Southeast Asia's largest spun pile manufacturers, exporting to over 15 countries.

The division has since grown into a key provider of building material solutions—offering pre-stressed spun piles, precast IBS systems, quarry aggregates, limestone products, scaffolding and ready-mixed concrete. With a strong focus on quality, innovation and sustainability, IJM Industry continues to deliver the essential materials that support national development and regional growth.

FY26 Revenue

RM 1,240.5 m

PHC Piles Sales Tonnage

2.2 mt

Exported to

15 countries

>45 years
of experience

Total weight of piles
manufactured since 1977

CAPACITY & LOCATIONS

- ◆ 10 Spun Pile Factories (2.2 mil tonnes / annum)
- ◆ 8 Aggregate Quarries (5.6 mil tonnes/annum)
- ◆ 1 IBS factory (500,000 sqm/annum)

- ◆ 8 Ready-Mixed Concrete Plants
- ◆ 1 Sand Mining Plant
- ◆ 2 Scaffold Warehouses
- ◆ 1 Limestone Quarry

INDUSTRIAL CONCRETE PRODUCTS (ICP Piles)

ICP Piles is Malaysia's first commercial manufacturer of pretensioned spun concrete piles and has grown into one of the largest spun pile producers in Southeast Asia. Backed by over 48 years of proven expertise, ICP leads the foundation engineering sector with a wide range of offerings, available in diameters from 250mm to 1,200mm and lengths up to 90 meters.

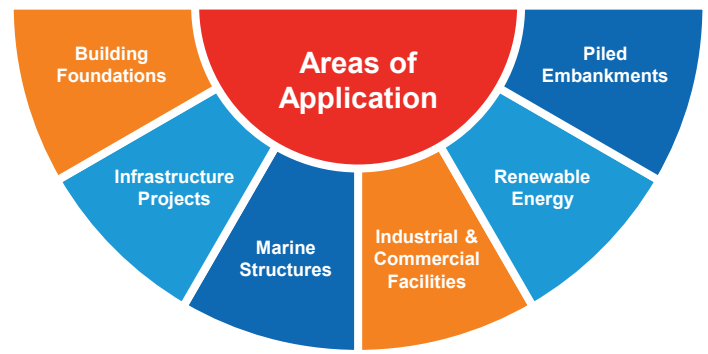

With a presence in over 14 countries worldwide, ICP continues to uphold its reputation for delivering trusted, high-performance foundation solutions across the globe.

ICP breaking the Malaysia Book of Records

- Listed in The Malaysian Book of Records for manufacturing the longest single precast concrete pile in Malaysia with the length of 54m in a single piece in 2023
- Longest Prejoined Spun Concrete Pile (90m), year 2025

First pile manufacturer awarded with GREEN cert

- ICP Piles have been certified under SIRIM Eco Label, MyHijau (Malaysia) and Green Label (Singapore)

SUBSIDIARIES

Industrial Concrete Products Sdn Bhd (ICP Piles)

A trusted foundation specialist, ICP Piles delivers reliable foundation solutions, building the essential groundwork for a resilient and sustainable global future.

Malaysian Rock Products Sdn Bhd (MRP)

One of the largest quarry operators in Malaysia with an annual capacity over 6 million metric tons of granite and industrial-use stones annually.

Scaffold Master Sdn Bhd (SMSB)

Supplier of scaffolding rentals, offering both conventional and modular systems as well as safety accessories.

Strong Mixed Concrete Sdn Bhd

Supplier of ready-mixed concrete to high profile mega projects throughout Malaysia.

IJM Minerals Sdn Bhd

Supplier of high-purity calcium carbonate products, used in various applications from filler materials to environmental solutions.

IJM IBS Sdn Bhd

SMART IBS solution delivered with advanced automation, offering fully customisable end-to-end precast solutions.
